

Project Two Outline

Create an outline for project two giving details about your plans. To earn the full 10 points on the rubric for this part of the project, please address each of the following. You should submit your outline in a Word or PDF document to the Assignments Dropbox on D2L no later than Monday at 11:59 p.m.

Answer the following questions in an outline that follows this form:

1. TITLE: Write an original title for your project.
2. TEXT and ADAPTATION: Indicate which text you chose to adapt and what it will look like in its new form. Be specific about what your visual/audio will be like. If you're writing a comic, how many panels? If you're creating a painting, what scene? If you're writing a song, what type of music? If you're making a board game, what type of game? This section should give a clear idea of what the final product will look/sound like.

Example: I chose to adapt "The Garden Party" into a collage. The collage will be made of historical newspapers that I found in the library. I am Xeroxing the newspapers that have old dresses and party announcements. I will place these next to obituaries from the same time period. The final product will look like a historical newspaper announcing the death and the garden party together.

3. WRITING SAMPLE: The goal of Project Two is to sell your adaptation to the public. In your written portion, you will write with the intent of persuading your readers that your project is the best adaptation of your story. For this outline, answer question (a) from the Project Two assignment sheet:

- a. Why should an audience be interested in the original story you picked? What makes it relevant to a new generation of readers?

SELL the story, in its original form by explaining why it matters.

4. CITE ANY SOURCES IN MLA FORMAT: If you do not create your visual portion yourself, you will need to cite EACH source you use. Look up how to cite images on Purdue OWL -- <https://owl.english.purdue.edu/owl/resource/747/08/> Scroll down to the section on how to cite an image.

Include all correct citations for the images from your project on the outline. The citations are due now, and will not be credited if turned in later. If you are not borrowing images, please indicate this on the outline by writing "N/A."
